

THE FELT STUDIO SHOE LASTS \$22 AUD per pair plus postage

I have styrofoam shoe lasts in the following European sizes. The number next to it (0, 1 or 3) is how many of each I have. and the broad style is a men's/clog style. The narrow size is more a ladies style. If I am out of stock I can order the size in but there may be a wait.

Narrow

Broad

VERY IMPORTANT

When choosing sizes choose one to two sizes smaller than your foot size as the felt has a lot of give e.g. I usually take a size 8 1/2 to 9 Australian size Shoe(European 40) my last that fits me best is size is 38. Use at least 200g of wool i.e.100 g each foot to make your slippers so they will keep their shape. Once you have moulded them on the last you can do the final shaping to your actual foot measurement by rubbing them on your foot whilst they are wet. Most of the hard work is done on the last. I will be doing a you-tube video to show how this can be done soon.
