

2015 FELT CLASSES

A new year and new classes! Please note this document is long. Keep scrolling down to get all the info –If you print it out and keep it in a folder it can be quite handy. Classes are **mixed classes** i.e. each person could be making a different item in the one class as there are 19 different classes to choose from! You get to see a variety of different items being made. **All designs and colours will be your own choice.** Choose your class from the numbered list below - all classes are suitable for beginners. If you have done one of my classes before and want to extend your skills I can tailor your tuition with imaginative ideas for texture, shape and structure. I am also running some exciting classes with international and interstate tutors to extend my students possibilities for learning.

Pictures of sample class items will be on my website www.wendybailye.com in the gallery section <http://www.wendybailye.com/gallery/felt-workshop-examples> This helps you choose your class -these are samples only- your piece will be your very own design and colour.

ALL MATERIALS PROVIDED

I provide all materials to students in my classes. There are many reasons I do this. Firstly it guarantees the quality of wool, especially when wool is teamed with fine silk and also means I know the exact shrinkage rate of your piece -not all wools are the same, every sheep is different! All my fabrics will felt which is very important. Sometimes student's fabrics don't felt and it is hugely disappointing! It is nice to have a stress free class both for me and you! Secondly it means you have more choice of colours and textures to work with as I have over 200 colours of wool and lots of extra fibres etc. to choose from - you can work with colour more intuitively and artistically as all the colours you need are there. I have stacks of wools and yarns and fibres and pre-felt and handmade felt all of which are free to use in class. Great value having so much choice!! I believe strongly that use of colour is an intuitive process and you may feel differently and attracted to another colour when you get to class - you will be free to choose and will not be limited by your materials. Thirdly, having materials supplied saves you a lot of time and money running about and travelling to find the right materials.
